DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Jacobsen et al.

Jacobson et al., discloses a movement actuator sensor teaching or suggesting features of the claimed invention including a top and a bottom caps and column portion extending between them. The column buckles upon sufficient large force.

3. Claims 17-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. claims 1-15 and 22-24 are allowed.

Response to Amendment

5. Applicant's amendment and arguments filed 4/4/5 have been fully considered and the rejection of all claims except claim 16 is withdrawn. The argument regarding claim 16, is not

Art Unit: 2855

persuasive, since not only a shock column is not recited in the body of the claim but (in the absence of sufficient structural recitation) any rod can be considered as a shock column.

6. THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
